

Decision-Making Process: Questions To Consider When Determining Service Delivery Models

What is the student's goal?

Is the student acquiring knowledge or learning a new skill (**establishment**); learning a strategy or when to implement (**mastery**); using a strategy independently (**generalization**); or working to **maintain**?

Where can the skill be taught and/or used?

Who are the communication partners the student needs to engage with to successfully achieve the goal?

What environmental supports does the student need?
