## PQRS REPORTING FOR SPEECH-LANGUAGE PATHOLOGISTS

### SCENARIO 1: MEASURES #130 AND #131 (MEDICATION DOCUMENTATION AND PAIN ASSESSMENT)

The SLP provides speech-language treatment (CPT code 92507). The SLP reviews and documents the patient's current medication(s) and administers a pain assessment using a standardized tool. The pain assessment is negative and no follow-up plan is required.

### SCENARIO 2: MEASURE #226 (TOBACCO USE: SCREENING AND CESSATION INTERVENTION)

The SLP sees a patient for an evaluation of speech sound production (CPT code 92522). The SLP establishes that the patient is a tobacco user and provides tobacco cessation counseling. (See [Tobacco Use, Swallowing, and Communication](#) for assistance with patient counseling.)
